

SIZE CHART

How to measure your body for size

Neck: Measure around your neck at the point where a shirt collar band encircles the neck.

Bust/Chest: Place tape measure up under arms and measure the fullest part of the chest or bust, keeping tape parallel to the floor.

Waist: Tape measure should be straight around waist where pant waistband normally sits.

Sleeve: With elbow bent, measure from the center of the back at the base of the neck, across the shoulder to the elbow and then down to the wrist.

Hip: Standing with heels together and with tape parallel to the floor, measure the fullest part.
